Pub Acquisition Managers

North or North West

The Company

A major FTSE 100 company, our client Enterprise Inns, is one of the UK's largest and fastest growing pub companies. With an estate in excess of 7,750 pubs, Enterprise Inns plc can offer exceptional benefits and exciting career opportunities. Due to continued financial success and impressive portfolio expansion, they are now looking to recruit two dynamic and results-driven field-based Acquisition Managers, located either in the North West, encompassing North Wales, North Midlands, Cheshire and Lancashire, or Northern Counties, encompassing Cumbria and Yorkshire.

The Roles

These are high profile appointments reporting directly to the Head of Acquisitions and liaising with senior management on all acquisition issues. The ability to develop and implement strategies to acquire quality freehold pubs, suitable for operation on a tied lease, is crucial. Project management skills are also essential as duties will involve research, identification (both on and off market), negotiation, acquisition and eventual transfer of single unit and multiple assets to the relevant operations colleagues, working as part of a cohesive team within this blue-chip organisation.

The Person

Essentially, either MRICS qualified Acquisition Surveyors or individuals with a proven track record from an agency or corporate background, who are commercially astute and have drive and business experience in a customer-facing role, preferably within the licensed, leisure or retail sectors. You will have knowledge of the issues affecting the profitable operation of licensed premises and the ability to plan and prioritise a demanding workload.

Enterprise Inns plc is an empowered organisation and its Acquisition Managers benefit from a significant degree of autonomy in site-selection and decision-making, a highly attractive aspect of these roles.

To reflect the nature of these exceptional business opportunities, an attractive blue-chip package is on offer, including fully-expensed car, private health, pension, shares schemes and bonus.
